

Placement Information - Fact Sheet

The chart below is to help parents understand how our grade (class) system works in relation to other educational systems. All children joining the International Community School, from the age of 6, undergo a placement test to assess where their abilities lie, which determine where they are placed. In ICS, we take into consideration their age and the results of their assessment. We use the Iowa Test of Basic Skills (ITBS) assessment method, which determines class/grade placements.
